Sustainable Society Initiatives

Rainforest Alliance-Certified Coffee

This coffee is grown on farms certified by the New York-based international non-profit organization Rainforest Alliance to be environmentally friendly, contributes to the local community and adheres to strict production standards.

We use Rainforest Alliance-certified coffee beans in our regular coffee.

· Natural mineral water in metal bottles (400 ml)

Drawn from 250 m underground in Oita Prefecture's Kanagoe mountain range, these are label-less to be more environmentally friendly.

· Fuji mineral water in paper cartons (330 ml)

These use approximately 74% less plastic than PET bottles.
